

Experience entitling me to give expert evidence

I am Dr. Barbara S. Lutz, MD, PhD. My specialist field since 2005 is aesthetic surgery performing around 200 various aesthetic procedures per year.

During this time I performed over 3000 breast augmentations among other breast operations such as breast augmentation combined with uplift, breast uplift without implant, breast reduction, and diverse others. Before 2005 I operated on the breast for medical indications such as mastectomy in breast cancer, breast reconstruction after cancer treatment, and breast reduction.

Further frequent operations include tummy tucks +/- liposuction, face/neck lifts, eyelid surgery and others.

I prepare medico-legal reports for both Claimant and Defendant.

I am on the specialist register of the GMC for General and Plastic Surgery.

I have dual British and German nationality. I am fluent in English, German, and Swedish.
